

## Насосные установки повышения давления (УПД) на основе вертикальных многоступенчатых центробежных насосов CDM

**AIKON PBS 3 CDM5-2 FCC**

1. УПД поставляется на оцинкованной раме-основании. Коллекторы насосной установки, в зависимости от ее назначения и желания заказчика, могут быть из **ПВХ** или **нерж. стали**. Гибкие вставки - компенсаторы и отсечная арматура УПД, для присоединения насосной установки к трубопроводам, в стоимость УПД не входят.

2. Стандартное управление: тип **FCC** (частотно-каскадное регулирование) - каждый насос имеет свой контроллер серии **PD ES**.

**обновление  
15.02.2023**

Модель станции/артикул (нерж. коллектор)	Мощность насоса, кВт	Диаметр присоединения, мм (коллектора)	Макс. давление, бар	Ёмкость расшир. бака, л.	Цена розница (USD) с НДС	
					Нержавеющий коллектор	Коллектор ПВХ
